The Detail Description of Reflective Sheeting :

Advertisement Grade Reflective Sheeting

Advertisement Grade Reflective Sheeting is a reflecting material which is a fabric with particular resin embedded with micro glass balls with high reflecting rate, manufactured with the technology of micro grade precision and can reflect backward incident rays.

Features: High flexibility, screen printing for surface available, easy computer-aided printing.

Application: Advertisement signs, temporary work zone signs.

Engineering Grade Reflective Sheeting

Engineering Grade Reflective Sheeting, Reflective Film (Acrylic)

**Address : 3F,NO.333 DAZHA ROAD JIANGBEI DISTRICT,
NINGBO ZHEJIANG,,P.R.CHINA Postal code : 315020**

Tel: (86) 574 66831478/87383760. Fax: (86) 574 87383750

1) Features: Longevity of service, good reflectivity, and could be tear, good flexibility, can be screen printed and ink-jet printed, excellent for computer cutting.

2) Applications: The traffic sign and industrial safety signs, can be used in bad weather.

2) Reflectivity: ≥ 80 cd/lx.sqm

3) Service life: 7 years

4) Available color: white, red, yellow, blue, green, black

5) Dimensions: 1.22m x 50yds (can provide the size according to the customer's requirements)

High Intensity Grade Reflective Sheeting

high-intensity reflective sheet is a sort of reflective material with a multiple layer composite structure. By applying advanced technology, the glass beads coated by special metal plating film, result in reflective units. The bright reflective sheet integrates these reflective units with high-polymer material, and produces high durability

Printable Advertisement Grade Reflective Sheeting

Printable Advertisement Grade Reflective Sheeting is a reflecting material which is a fabric with particular resin embedded with micro glass balls with high reflecting rate, manufactured with the technology of micro grade precision and can reflect backward incident rays.
